CS-2 HINGED CONTROL SWITCH SAFETY COVER INSTALLATION INSTRUCTIONS

The Sentinel CS-2Hinge can be installed in minutes and does not require any drilling, disturbing of the switch wiring, or removal of the control switch from the panel. All you need is a flathead screwdriver.

Note: Only qualified persons who are familiar with the control system should install the CS-2Hinge Control Switch Safety Cover.

WHAT'S IN THE BOX

The Sentinel CS-2H W2 Safety Cover comes with two parts: "Main Switch Cover with Hinge", and the bottom locking plate.

01

First step in the installation process is to remove the control switch handle.

Care should be taken **not to move the handle** in an undesirable direction. To do this, you'll need a firm grip on the handle, then remove the screw that holds the handle

02

Next, remove the escutcheon plate. Using a small flat blade screw driver, using a twisting motion to pop the plate free.

03

Loosen the controls switches two mounting screws. About (3) full turns are sufficient.

From here, you will place the bottom lock plate between the escutcheon plate and the panel. Slightly snug the bottom screw.

04

Then install the “Main Switch Cover with Hinge”. Check for alignment and tighten the screws.

Ensure the cover operates smoothly and the holes on the locking tabs align properly.

Carefully replace the escutcheon plate and the Control Switch Handle.

05

CHECK TO BE CERTIAN THERE IS CLEARANCE BETWEEN THE HANDLE AND THE ESCUTCHEON PLATE OF THE CONTROL SWITCH.

You are ready to use the CS-2Hinge Control Switch Safety Cover.
